

FANUC CRX-25iA Turnkey Palletizer by Cobot Team

Cobot Team's turnkey palletizer is a good way to get a collaborative robot up and running at your facility doing end of line palletizing. Using the FANUC CRX-25iA with its 1,889 mm reach, and 25KG payload (30KG at 1,756), palletizing with a safe and reliable collaborative robot is finally possible.

These systems come complete with the FANUC CRX-25iA collaborative robot arm and controller box, vacuum gripper, steel pedestal (moveable with forklift), extendable pallet guides and sensors, and safety scanner. In addition, the cost includes Cobot Team's on-site integration support for most standard types of boxes, pallets, and infeed.

	Turnkey Palletizing Solution
Collaborative Robot	FANUC CRX - 25iA / 55 lbs. payload with 74-inch reach (66 lbs. at 69-inch reach).
